## **Students Bring Brew & Gold Café to Legislative Hall**

**January 18, 2019** -- Students from the [John S. Charlton School](#) visited Legislative Hall earlier this week. The school near Rising Sun serves Kent County students, ages 2 to 21, with special needs.

Since 2015, students have been operating a coffee shop inside the school, giving them practical experience in task completion and customer service. Among other things, Charlton students are taught functional life skills to enhance their level of independence.

On Tuesday afternoon, the students brought their "Brew & Gold Café" to the capitol to demonstrate their vocational skills, serve legislators and staff, and appear in the House Chamber with school officials to discuss their work.
